

After you login, you can locate your comment dashboard in the contextual menu under the "My Profile" tab located in the top menu. The comment dashboard has three tabs.

1. The "My Comments" tab shows a list of all the comments you made to various blogs.
2. The "Comment Subscriptions" tab keeps a list of all the blog comment feeds you subscribe to and allows you to unsubscribe, disable or enable your subscription. Additionally, you can get directly to the blog you subscribed to directly from this list. (to subscribe to a blog comment feed, see the faq entry "How do I subscribe to a blog comment feed?")
3. The "Favorite Entry" tab serves as a place to keep your favorite blogs. This list is created when you click the "Set as favorite" link at the bottom of each blog entry. You can do the following with this list:
  - Link directly to the blog you set.
  - Remove the blog as a favorite by clicking on the "remove" link on the right hand side of the list.
  - Allows you to subscribe to the RSS feed for the particular blog on list by clicking on the orange RSS feed icon to the left side of the blog item on list.
